

SeaLife[®]

underwater cameras

2014 Cameras, lighting,
and accessories

SeaLife's **DC1400 Camera** makes underwater photography easier than ever before and offers stunning HD video and brilliant 14-megapixel still images. The camera combines diver friendly design and six underwater color modes for sharp, colorful images.

DC1400

Item SL720

Five widespread "Piano Key" controls, a large shutter button, and a fingertip control lever that allows scrolling through menus and zooming without releasing your grip from the camera, all make the DC1400 incredibly easy to use underwater.

- 14 megapixel high-resolution CCD and HD Video Mode
- Large 3.0" LCD for easy on-camera viewing
- Easy Set-up Mode onscreen guide and 6 Underwater Modes for colorful images in any environment
- 26mm Wide Angle Lens
- Rechargeable lithium battery for 2 tank dive (2+ hours or 200+ pics)
- Super Macro Auto Focus from 1" (2.5cm) to ∞
- Manual shutter and aperture control in External Flash Mode
- Spy Mode – automatically shoot continuous pictures
- Rubber armored and shock-resistant
- Depth rated to 200ft / 60m – Guaranteed

New improved performance with V2014 firmware update

New Sea Dragon Flash Item SL963

Reducing backscatter and producing rich, deep colors in underwater photos, the Sea Dragon Flash is compatible with all SeaLife models as well as other brands of underwater cameras. Variable power adjustment and large controls make it easy to fine-tune brightness, while leaving the flash in Auto Mode automatically adjusts brightness for optimal exposure. The flash has an effective range of up to 8 feet / 2.5 meters, and a quick release button to quickly detach head for aiming in hard to reach areas. Includes a snap-on diffuser, standard tray, grip and compact case.

The serpent of supreme color and brightness. Lighting is one of the most important components of underwater photography, and it's essential to bringing out bright colors in underwater photos and videos. The compact and powerful Sea Dragon lighting makes it simple to add light to your images down to 200ft / 60m. With Flex-Connect trays, grips and arms, you can easily position yourself and the camera for any imaginable shot.

New Sea Dragon 2000 Photo/Video/Dive Light Item SL984

For a constant, ultra-bright source of light for photos and videos - or just to brighten your dive - the compact Sea Dragon 2000 Photo/Video/Dive Light uses the latest in LED technology and packs 2000 True Lumens of brightness. Featuring a wide, 100-degree beam angle that's perfect for cameras with a wide field of view, the light operates with only a single button and quickly adjusts between 3-power levels. Powered by a rechargeable lithium-ion battery, the Sea Dragon 2000 burns for a full hour at 100% power at constant brightness. Includes standard tray, grip and compact case.

New Sea Dragon 1200 Photo/Video/Dive Light Item SL983

Featuring 1200 lumens and a 75 minute burn time at full power, the Sea Dragon 1200 Photo/Video/Dive Light comes in a micro sized package. With its included grip, Micro-Tray and adapter for GoPro® cameras, it's the perfect setup for providing light and stability to ultra-compact and full-sized cameras. Includes compact case.

Quickly and easily expand your camera's capabilities with the SeaLife **Flex-Connect** system – add grips, Flex Arms, trays and other accessories with just a simple “click!”

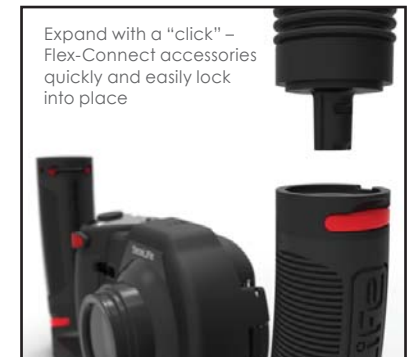

New flex-connect™

Made of fiber-reinforced polycarbonate and marine grade stainless steel for maximum holding strength and durability, Flex-Connect mounts easily “click” into place, underwater or on land, and can be disassembled with the push of a button.

Flex-Connect allows you to transform your camera set from compact to full-featured in

just seconds, providing a quick way to adjust to any dive environment: add Flex-Arms to extend your lights with 100-degrees of bending motion, use the Cold Shoe Mount or Micro-Tray for an incredibly compact setup, or connect multiple lights to your camera with the Dual Tray.

New DC1400 Sea Dragon Sets

Sea Dragon Pro

Item SL735

Ideal for colorful still shots, the compact and intuitive-to-use DC1400 Sea Dragon Pro includes the Sea Dragon Flash alongside the DC1400 camera, lighting up the deep and providing images bursting with color.

Sea Dragon Pro Duo

Item SL736

The DC1400 Sea Dragon Pro Duo - including the DC1400 camera, flash and 2000 Lumen Photo/Video/Dive Light - is a versatile set that's perfect for shooting both colorful photos and HD videos.

Sea Dragon Maxx Duo

Item SL737

The DC1400 Sea Dragon Maxx Duo combines the DC1400 camera with flash and 2000 Lumen Photo/Video/Dive Light extended by Flex Arms, as well as the ultra-wide Fisheye Wide Angle Lens and a host of other accessories - including a custom waterproof hard case to keep everything organized - that make this the ultimate underwater photography package for any underwater shooting environment.

Get the DC1400 camera perfectly matched with Sea Dragon lighting. With the combination of the DC1400

and Sea Dragon lighting, you'll notice amazing colors, never before seen in your still images and video. The powerful and compact Sea Dragon lighting allows the DC1400 to focus better and faster, resulting in sharp, bright underwater images.

The versatile, compact **Sea Dragon™ Mini 600** mounts easily and quickly to a cold shoe or AquaPod®, and it can be hand held or adapted to a GoPro® Camera.

New **Sea Dragon Mini 600** *Item SL981*

This powerful 600 lumen LED dive light uses the new CREE XM-L2 LED and was designed for multiple applications down to 300 feet/100 meters. The included GoPro® camera mount, Sealife AquaPod mount, cold shoe mount, universal Y-S adapter and lanyard clip make this light unmatched in its versatility.

The compact light features a 75-degree wide beam angle, two power modes (100% and 40%), a low power setting providing up to 250 minutes of burn time, and easy on/off control with the twist of the light head bezel.

Power is supplied by two CR123 lithium batteries (included) or an optional rechargeable lithium-ion battery delivering up to 100 minutes of burn time at full power.

Digital Pro Flash *Item SL961*

With adjustable power, Auto Mode, and flexible rubberized arm, the Digital Pro Flash reduces backscatter and helps bring out bright colors in your underwater images.

Photo/Video Light *Item SL980*

The versatile Photo/Video/Dive Light features 500 lumens, 8 light mode settings, one button control, a quick release detachable head, and adds light to your underwater videos and close up images.

Both the Digital Pro Flash and Photo/Video/Dive Light work with all Sealife cameras as well as other brands of underwater cameras with a standard 1/4-20 tripod mount.

Enhance your underwater photography with SeaLife accessories. **Flex-Connect** trays, mounts and flex arms allow you to easily expand your camera set, the **AquaPod** underwater monopod will get you closer to any sea creature, and the super wide **Fisheye Lens** can increase your field of view by over 80%.

New flex-connect Flex Arm

Item SL9901

Expand your camera set with one "click." Flex Arms feature 100 degrees of bending motion, add 7 inches in length, and allow you to direct light wherever you need it. Add up to two arms per side.

New flex-connect™ Dual Tray Micro Tray

Item SL9904

Item SL9902

The compact Micro Tray is perfect for adding light and stability to your ultra-compact camera, while the Dual Tray expands your camera set with multiple lighting options.

AquaPod

Item SL913

The SeaLife AquaPod allows you to shoot pictures and videos from creative viewing angles, take self-portraits, and capture close up photos and videos of your subject while maintaining your distance. The compact underwater monopod extends to 53 inches/135 centimeters, fits all cameras with a standard tripod mount and includes an adapter for GoPro® cameras. Sea Dragon Mini 600 not included.

Fisheye Wide Angle Lens

Item SL975

With a 16mm effective focal length on the DC1400 camera, the Fisheye Lens provides an ultra-wide perspective of the undersea landscape and easily attaches underwater. Compatible with all SeaLife DC series cameras and depth proof to 200 feet /60 meters.
