

Gamma

The tactical aluminum dive light, transformed by pure design.

At over 220 lumens in a featherweight 4 ounce frame, the Gamma boasts the highest power to weight ratio in its class. We started with aircraft grade aluminum and precision-machined a supremely ergonomic, no-slip contour grip. We purposefully avoided unnecessary grooves and texturing on the light body to allow it to slide in and out of your pocket without snagging. Military-grade anodizing and a double o-ring seal provide corrosion-proof and waterproof operation up to 400ft (120m). A heavy duty mechanical tail switch provides either continuous or momentary lighting at the touch of a button.

It's not just the sexiest dive light you've ever seen, it's a smart investment. Start building your lighting system with the addition of a diffuser and mount. Useful as close-up lighting, focus assist, or to amplify a larger primary light source.

Gamma is designed and manufactured in the USA.

Specifications

- LED Intensity: 220 lumens
- Beam Angle: 10 degrees
- Batteries: 2 CR-123 cells
- Burn Time: 10 hours
- Depth Rating: 400ft (120m)
- Size: 5.6in x 1.4in (142mm x 36mm)
- Weight: 0.25lbs (4oz)

Includes

- Gamma flashlight
- (2) CR123 batteries
- Wrist lanyard

Product

- 1800 Black
- 1801 Silver
- 1803 Red

Available in black, red and silver.
