■ 「SD Front Mask for HERO5」 Features ■

- Specifically designed for the genuine GoPro® 「Dive housing for HERO5 BLACK」.
- Easy to install to snap on the front of the housing and fix with a thumbscrew.
- Equipped with INON “SD Mount” bayonet system with locking feature to support easy and speedy exchange as well as reliable installation of compatible SD Mount lenses. Of course the SD Front Mask for HERO5 is usable without any attachment lens (*1)
- INON「Direct Base III」, 「Z Joint」 or 「Z Adapter MV」 can be attached on the bottom of the SD Front Mask for HERO5.
- Installing packaged Male Adapter (GoPro®) on the bottom of this product utilizes your GoPro® compatible accessories.
- Packaged 「Mount Adapter for SD Front Mask」 enables to add the optional INON 「D Holder」 on the left side of the bottom of this product.
- The 「Mount Adapter」is equipped with a tripod screw hole (1/4”) to attach the SD Front Mask for HERO5 on a tripod or monopod.

「SD Front Mask for HERO5」 specifications

- Size(including protruded parts): Width: 67.9mm(2.7in), Height: 82.3mm(3.2in), Depth: 39mm(1.5in)
- Weight: Air: 40g(1.4oz), Underwater: approx. 15g(0.5oz)
- Material/surface finishing: Polycarbonate, POM etc.

● Compatible Lens ●

Left: 「UFL-G140 SD」installed on the 「SD Front Mask for HERO5」
Right: 「UCL-G165 SD」 installed on the 「SD Front Mask for HERO5」

(*1)

When using on land, set FOV mode other than 「Wide」 or use without this product to prevent vignetting observed mainly in ultra wide mode even without an attachment lens. (No vignetting underwater)

(*2)

This lens is designed only for underwater use. (When using on land, distant subject is not in focus and angle of view is not as wide as rated)

(*3)

This lens is designed only for underwater use. (When using on land with FOV setting “WIDE”, vignetting will be observed)

(*4)

Not usable for “SuperView™ mode” as this mode adds software-based deformation effect enhancing more aberrations when using an attachment lens.

Front / Back / Bottom of the SD Front Mask for HERO5

Combination example with 「Direct Base III」, 「Z Joint」, 「Z Adapter MV」, 「Male Adapter (packaged)」, and 「Mount Adapter (packaged)」 (from left)
