

To all our dealers!

New dome port DP-230:

9" Universal Domeport, available with type4 bayonet, #4002304
Type3 version is planned.
Neoprene cover for DP-230, #430023

Our new Domeport offers excellent optical configuration especially for zoom lenses:

Nikon AF-S 14-24 / 2.8G ED
Nikon AF-S 16-35 / 4.0G ED VR
Nikkor AF-S 17-35 / 2.8 D
Canon EF16-35 / 2.8L USM II
Canon EF17-40 / 4L USM

Lenses above works with the same size EXR as used in Dome port DP-FE.

Port locking system:

CD7 housing for Canon EOS 7D and CD4 for Canon EOS 1 Mark IV:
Subals first housings with port locking system. (For type4 bayonet)

All since March 2010 produced EXRs and ports are compatible with the port locking system and works also with older housings.

Existing EXRs and ports can be remachined to be compatible with the locking system. Otherwise they are also useable without locking function.

Max. Depth rating 120m (360 ft):

All housings can be ordered also for a depth rating of 120m (360 ft)
It is also possible to modify housings afterwards for high depth rate.

All existing ports and EXRs can be used except DP-SUP.
(A pressure test must be done with all parts)

New neoprene cover for DP-FE:

#430184N covers the complete dome glass now.
Old style covers are still available.

New leakage warner:

Nearly all new housings come with the optical (LED) and acoustical moisture & leakage warner. A few stocking housings are built with optical leakage alarm.
Begin of 2010 will be generally changed.

With best regards,
Your Subal team
