

T-HOUSING

T-HOUSING H8ENERGY ALUMINUM HOUSING FOR HERO8

Tett til 250m.

Item number 200 280

T-HOUSING H8ENERGY aluminum housing for Hero 8

High-end aluminum housing for the GoPro Hero 8 with space for the optional H8ENERGY power bank and charging adapter. Triple your battery capacity above and under water!

- CNC machined from a single aluminum block and hard anodized
- Waterproof up to 250m
- Optimal heat dissipation - practically fog-free
- Replaceable zinc sacrificial anode
- Optional magnetic filter set and magnetic macro lens

Attachment via two 1/4 " camera threads on the housing base. If you need a GoPro-compatible mounting option, there is a corresponding adapter, which must be ordered separately.

The illustrated camera and the H8ENERGY power bank adapter are NOT included in the scope of delivery.
